

FULL TIME (M/W/X) **CLINICAL SUPPORT SPECIALIST**

We are looking for an experienced and proactive professional with expertise in technical and clinical research to support product development. Core responsibilities include conducting literature and patent research and assessing their relevance to our projects.

 **4320 Perg /
4053 Ansfelden**

 **from 3.843€
(at 38,5h)**

 **30-60%
Homeoffice**

Your Skills

- Bachelor's degree in a technical, clinical, or scientific field (e.g., Biomedical Engineering, Life Sciences, or a related discipline).
- An advanced degree (Master's or PhD) is preferred but not required.
- At least 2 years of experience in literature research, patent analysis, or a related technical, clinical, or scientific research area.
- Familiarity with intellectual property and patent databases (e.g., Espacenet or similar) is an advantage.
- Strong research and analytical skills with the ability to summarize complex information.
- Proficiency in using research databases and patent search tools.
- Excellent written and verbal communication skills, with the ability to produce clear and concise reports.
- Fundamental understanding of the technical and clinical context relevant to the company's field of work.
- Ability to work independently and collaborate effectively with cross-functional teams.

Your Tasks

- Literature Research
 - Conduct research on technical and clinical topics to support product development and ensure access to current trends and best practices.
 - Analyze scientific articles, journals, white papers, and other academic resources.
- Patent Research
 - Review and evaluate relevant technical and clinical patents applicable to the company.
 - Assess the relevance of patents with respect to current and future development needs.
- Technical Support
 - Collaborate with the development team to translate research findings and competitor analyses into actionable recommendations.
 - Identify technical challenges and propose solution concepts based on literature and patent research.
- Documentation & Reporting
 - Prepare comprehensive research reports.
 - Provide updates on the state of the art, patent analyses, and potential impacts on the development timeline.
- Cross-Functional Collaboration
 - Coordinate closely with R&D, product development, legal, and other departments.
 - Participate in meetings to present and discuss technical and clinical findings.

We Offer

- Exciting and diverse projects in the field of medical technology
- Flexible working hours with remote work options and independent work in a young team
- Friendly and supportive work environment
- Engaging team events
- Opportunities for personal growth and professional development
- Great coffee, chess, and table soccer
- Free parking in Perg and Ansfelden
- Convenient locations near train stations in Perg and Ansfelden
- Company bike program
- Meal subsidy („Schrankerl“)
- Workation opportunity (up to 2 weeks per year, subject to agreement)
- Group health insurance with premium benefits

Salary

The annual salary is **44.450 - 70.000€ gross on a full-time basis**.
Willingness to pay more based upon qualifications and experience.
